RE: GPRA ENTRY ON PROVIDER CONNECT

Dear Providers,

As you know BPA and the Idaho Department of Health and Welfare have been preparing to implement Access to Recovery III. The first phase of implementation is here and we will be vouchering ATR III clients very soon.

As an ATR III Network Provider you are required to submit GPRA data electronically using the Provider Connect web portal. We have attached instructions for Provider Connect GPRA entry.

Individuals that were trained and certified to conduct GPRA interviews may choose to utilize the paper copy and transfer the data to Provider Connect, or enter GPRA data directly into Provider Connect during the interview process. We encourage each agency to choose what works best for them.

Please review the instructions and familiarize yourself with the process of entering GPRA events online.

Please direct questions regarding GPRA entry and Provider Connect to Ed Jensen at 208-947-1286 or edj@bpahealth.com

Thank you,

BPA Provider Network Management
